To Whom It May Concern

Re: Testimonial Letter:

This letter serves as a recommendation for experiential learning for Donald Themba Masango with a student number 14006851. Donald is a graduate at Rosebank College, Pretoria campus, holding a **Higher Certificate in Information Technology in Support Services, (HCSS)**.

Donald has done well in class during the development of his expertise in the theoretical framework and applications of the qualification within the classroom environment. He is enthusiastic, determined and ready for teamwork. He has also proven to be hard-working, focusing on excellence and exhibiting leadership traits in that he managed to apply the knowledge gained to become a freelance web developer and provides IT networking services.

Donald had gained enormous classroom technical skills in his qualification and at this stage, it would be ideal that he gains practical experience in line with his qualification and we therefore recommend that he be enrolled in a programme or employment that will equip him with the industry experience.

I have a great deal of respect for Donald, the value, efforts and passion (commitment) that he has put in his future and I am convinced that he will be successful in any goals he decides to pursue.

Should you require more information, please do not hesitate to contact me on the details below:

Regards

DINGAAN MOROPANE
